

COMPANY PROFILE

DRIVEN BY **TRUST.**
POWERED BY **PARTNERSHIP.**

The background of the slide is a faded, high-angle photograph of a modern architectural complex. It features multiple interconnected buildings with flat roofs, large glass windows, and some outdoor terraces. The overall style is clean and contemporary, typical of modern commercial or residential developments in the Middle East or Africa.

THE MEP GATE

Approach

At **MEP Gate**, we bring together deep expertise in engineering, procurement, supply chain, and project management. This blend allows us to serve the GCC's MEP sector with precision, efficiency, and confidence.

Our reputation is built on technical know-how, trusted partnerships with leading global brands, including select exclusive lines and a back-office team that ensures seamless execution from inquiry to delivery.

As the trading and consulting arm of **Mega MEP** Trading and Contracting, a long-standing industry leader with a strong footprint across the MENA region and Africa, we benefit from deep regional insight and established operational strength, bringing added value to every project we support.

Clients rely on us for our responsiveness, high standards, and consistent results.

VISION

At MEP Gate, we envision a future where engineering solutions go beyond technical delivery, forging lasting trust and redefining how service providers and clients connect across the GCC. We strive to set a new benchmark in reliability, innovation, and partnership.

Our mission is to provide innovative electro-mechanical solutions that enhance our customers' operational efficiency and profitability. We are dedicated to delivering reliable, cost-effective products and services that drive growth and foster lasting partnerships based on trust and excellence.

MISSION

CORE Offerings

Full HVAC Solutions

Pumps Range

Valves Lineup

Pipes & Fittings

Water
Treatment Solutions

Elevators

Generators

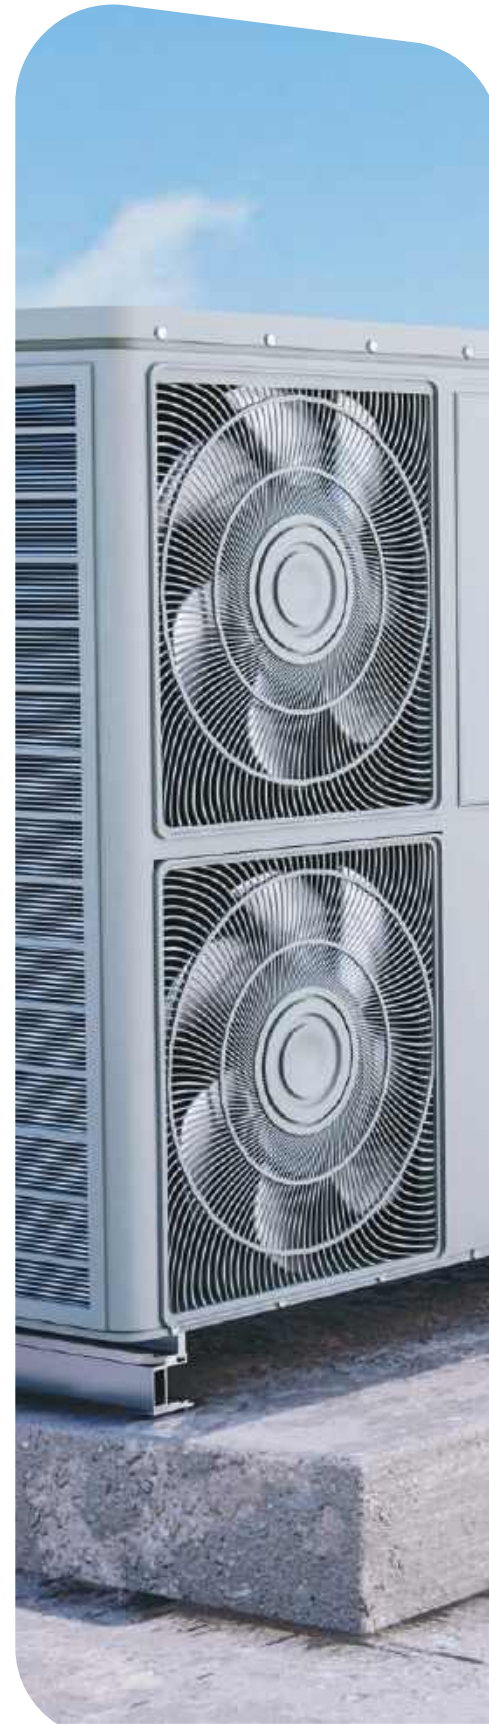

Complete
Electrical Solutions

Automatic
Gates, Barriers &
Components

Irrigation Systems

FULL HVAC Solutions

We offer comprehensive **HVAC solutions** featuring a wide selection of top-tier brands, including air conditioning systems such as split units and VRVs, chillers, a variety of fans integrated within HVAC setups, and specialized cold storage rooms.

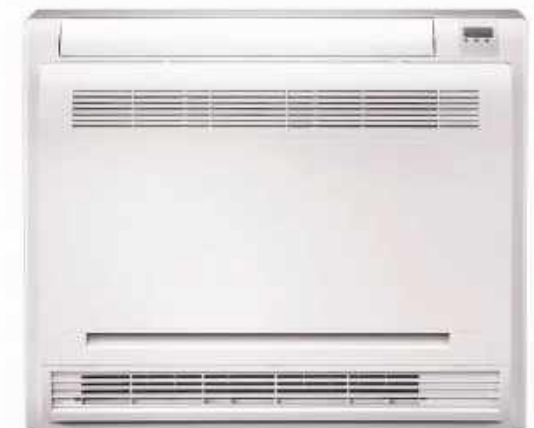

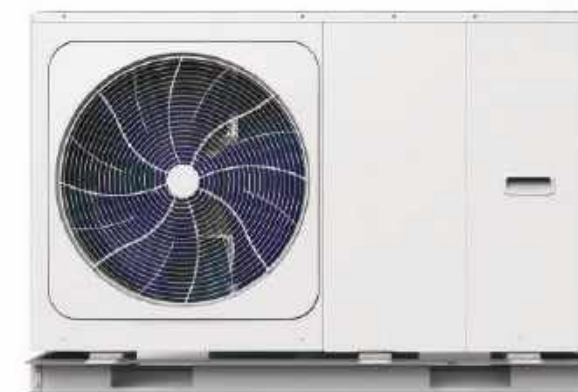

COLD STORAGE

Rooms

AIR Conditioning Units

INDUSTRIAL FANS

Selection

- In Line Duct
- Hatch
- Roof Mount
- Axial
- Pressurizing
- Ventilation
- Centrifugal
- Extractor
- Filter Units
- Smoke
- Heavy Duty

PUMPS

Range

Our pump packages cover a full range of applications including building services, water management, HVAC, water supply, drainage, and sewage systems. Designed for reliability and efficiency, our solutions come with comprehensive aftersales support to ensure sustained performance.

VALVES

Lineup

We offer a broad range of high-quality valves engineered for reliable performance and precise flow control.

Our products support various applications, providing durable and efficient solutions tailored to your needs.

- Landing
- Gate
- Globe
- DRV
- PRV
- Ball
- Swing
- Check

- Foot
- Strainer
- Butterfly

PIPES & Fittings

Our selection of steel and plastic pipes, fittings, and valves covers a wide spectrum of materials and certifications to meet demanding industry standards.

From seamless steel pipes to advanced plastic systems and robust metal valves, we deliver dependable components designed for long-term use in diverse applications.

Seamless Steel Pipes Black,
Epoxy & Galvanized

Malleable Iron Fittings;
UL & FM – LPCB – Kitemark

PPRC Pipes & Fittings

PVC & Silent PVC Pipes

PVC & Silent PVC Fittings

Pressure PVC
Pipes & Fittings

Brass, Bronze &
Ductile Iron Valves

Steel Clamps & Fixtures

Our water treatment and filtration systems are designed for all types of pools and spas, including indoor and outdoor setups, in-ground and above-ground installations, as well as jacuzzis.

They ensure consistently clean, clear, and safe water.

WATER TREATMENT Solutions

ELEVATORS

We deliver reliable vertical transportation systems built for comfort, safety, and efficiency, serving everything from residential and commercial buildings to hospitals and public spaces, with solutions that include elevators, escalators, and moving walkways.

- Passenger Elevators
- Home Elevators
- Freight Elevators
- Panoramic Elevators
- Hospital Elevators
- Moving Walkways & Escalators

A close-up photograph of a diesel generator engine. Several black corrugated hoses are connected to the engine block. A battery is visible in the lower right corner. The image is overlaid with a semi-transparent circular graphic and a dark blue gradient.

GENERATORS

We provide dependable diesel generator solutions tailored for critical and everyday power needs, supporting everything from construction sites and industrial operations to telecom towers, data centers, commercial spaces, and residential buildings, ensuring uninterrupted performance where it matters most.

Diesel Generators Sets Used In:

Industrial Power

Construction Sites

Domestic Buildings

Malls & Stores

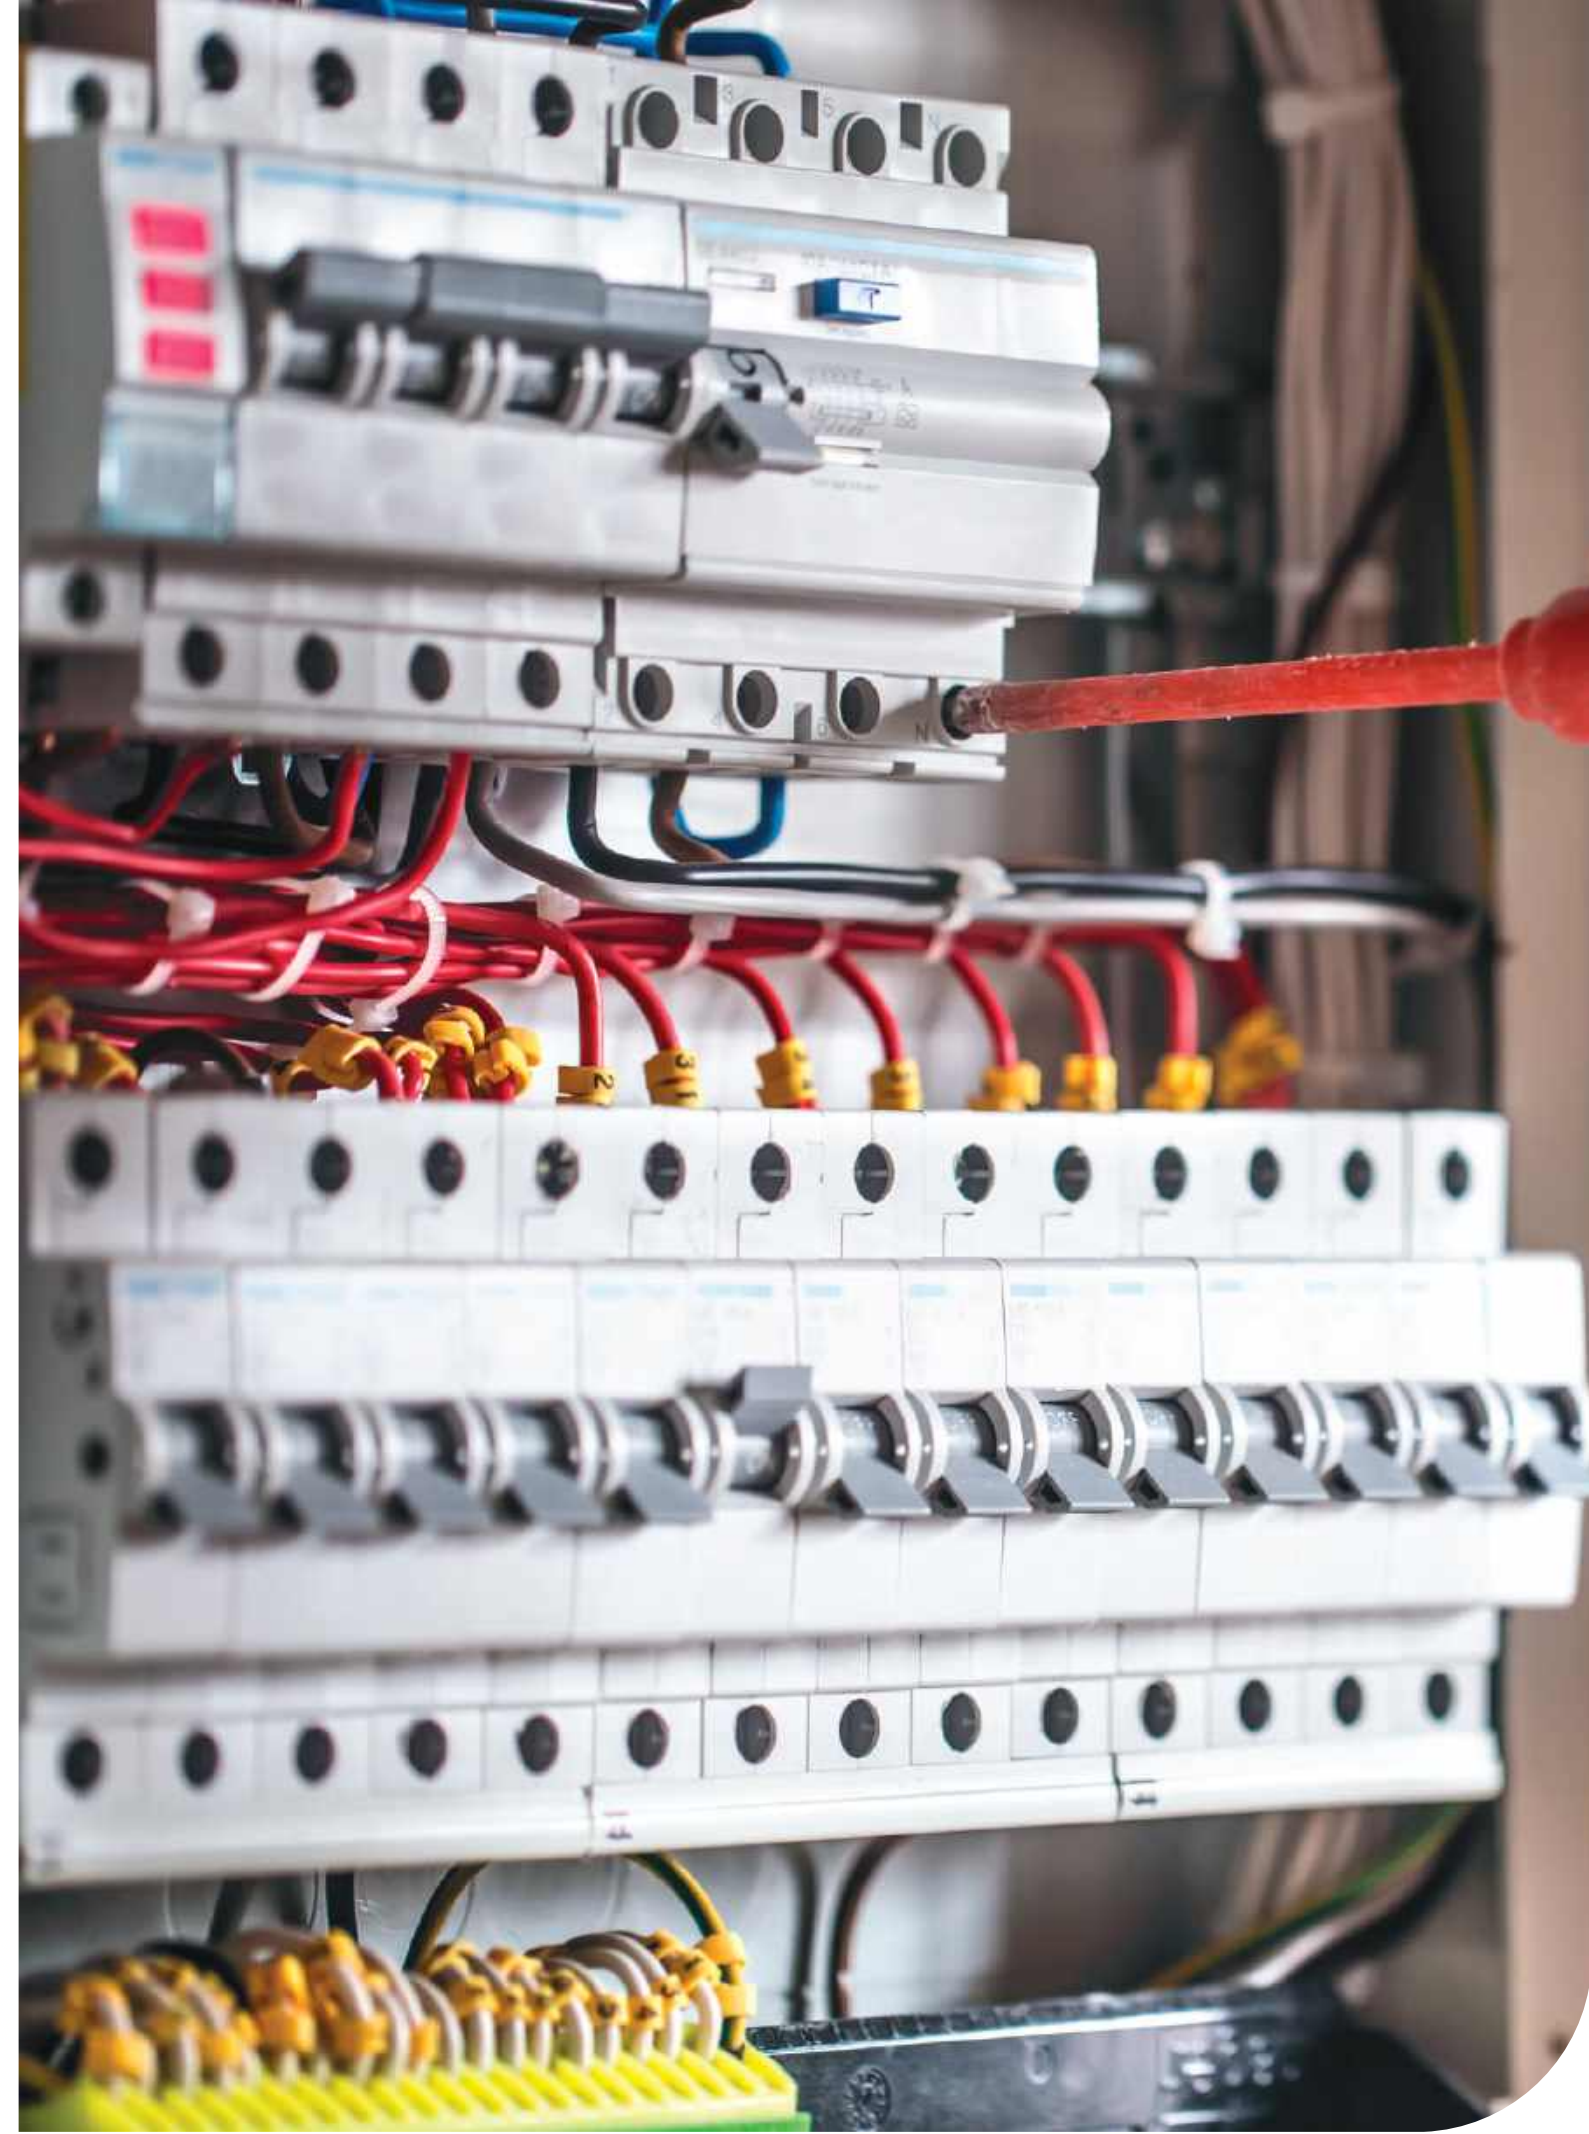

Stadiums

Telecom Towers

Data Centers

Complete Electrical Solutions

A comprehensive range of electrical tools and equipment designed for safe and efficient installations, covering power, lighting, and low current systems, ensuring reliability in residential, commercial, and industrial settings.

AUTOMATIC GATES, Barriers & Components

Enhancing security and controlling access with automatic gates, barriers, and components built for smooth, reliable operation in residential and commercial spaces.

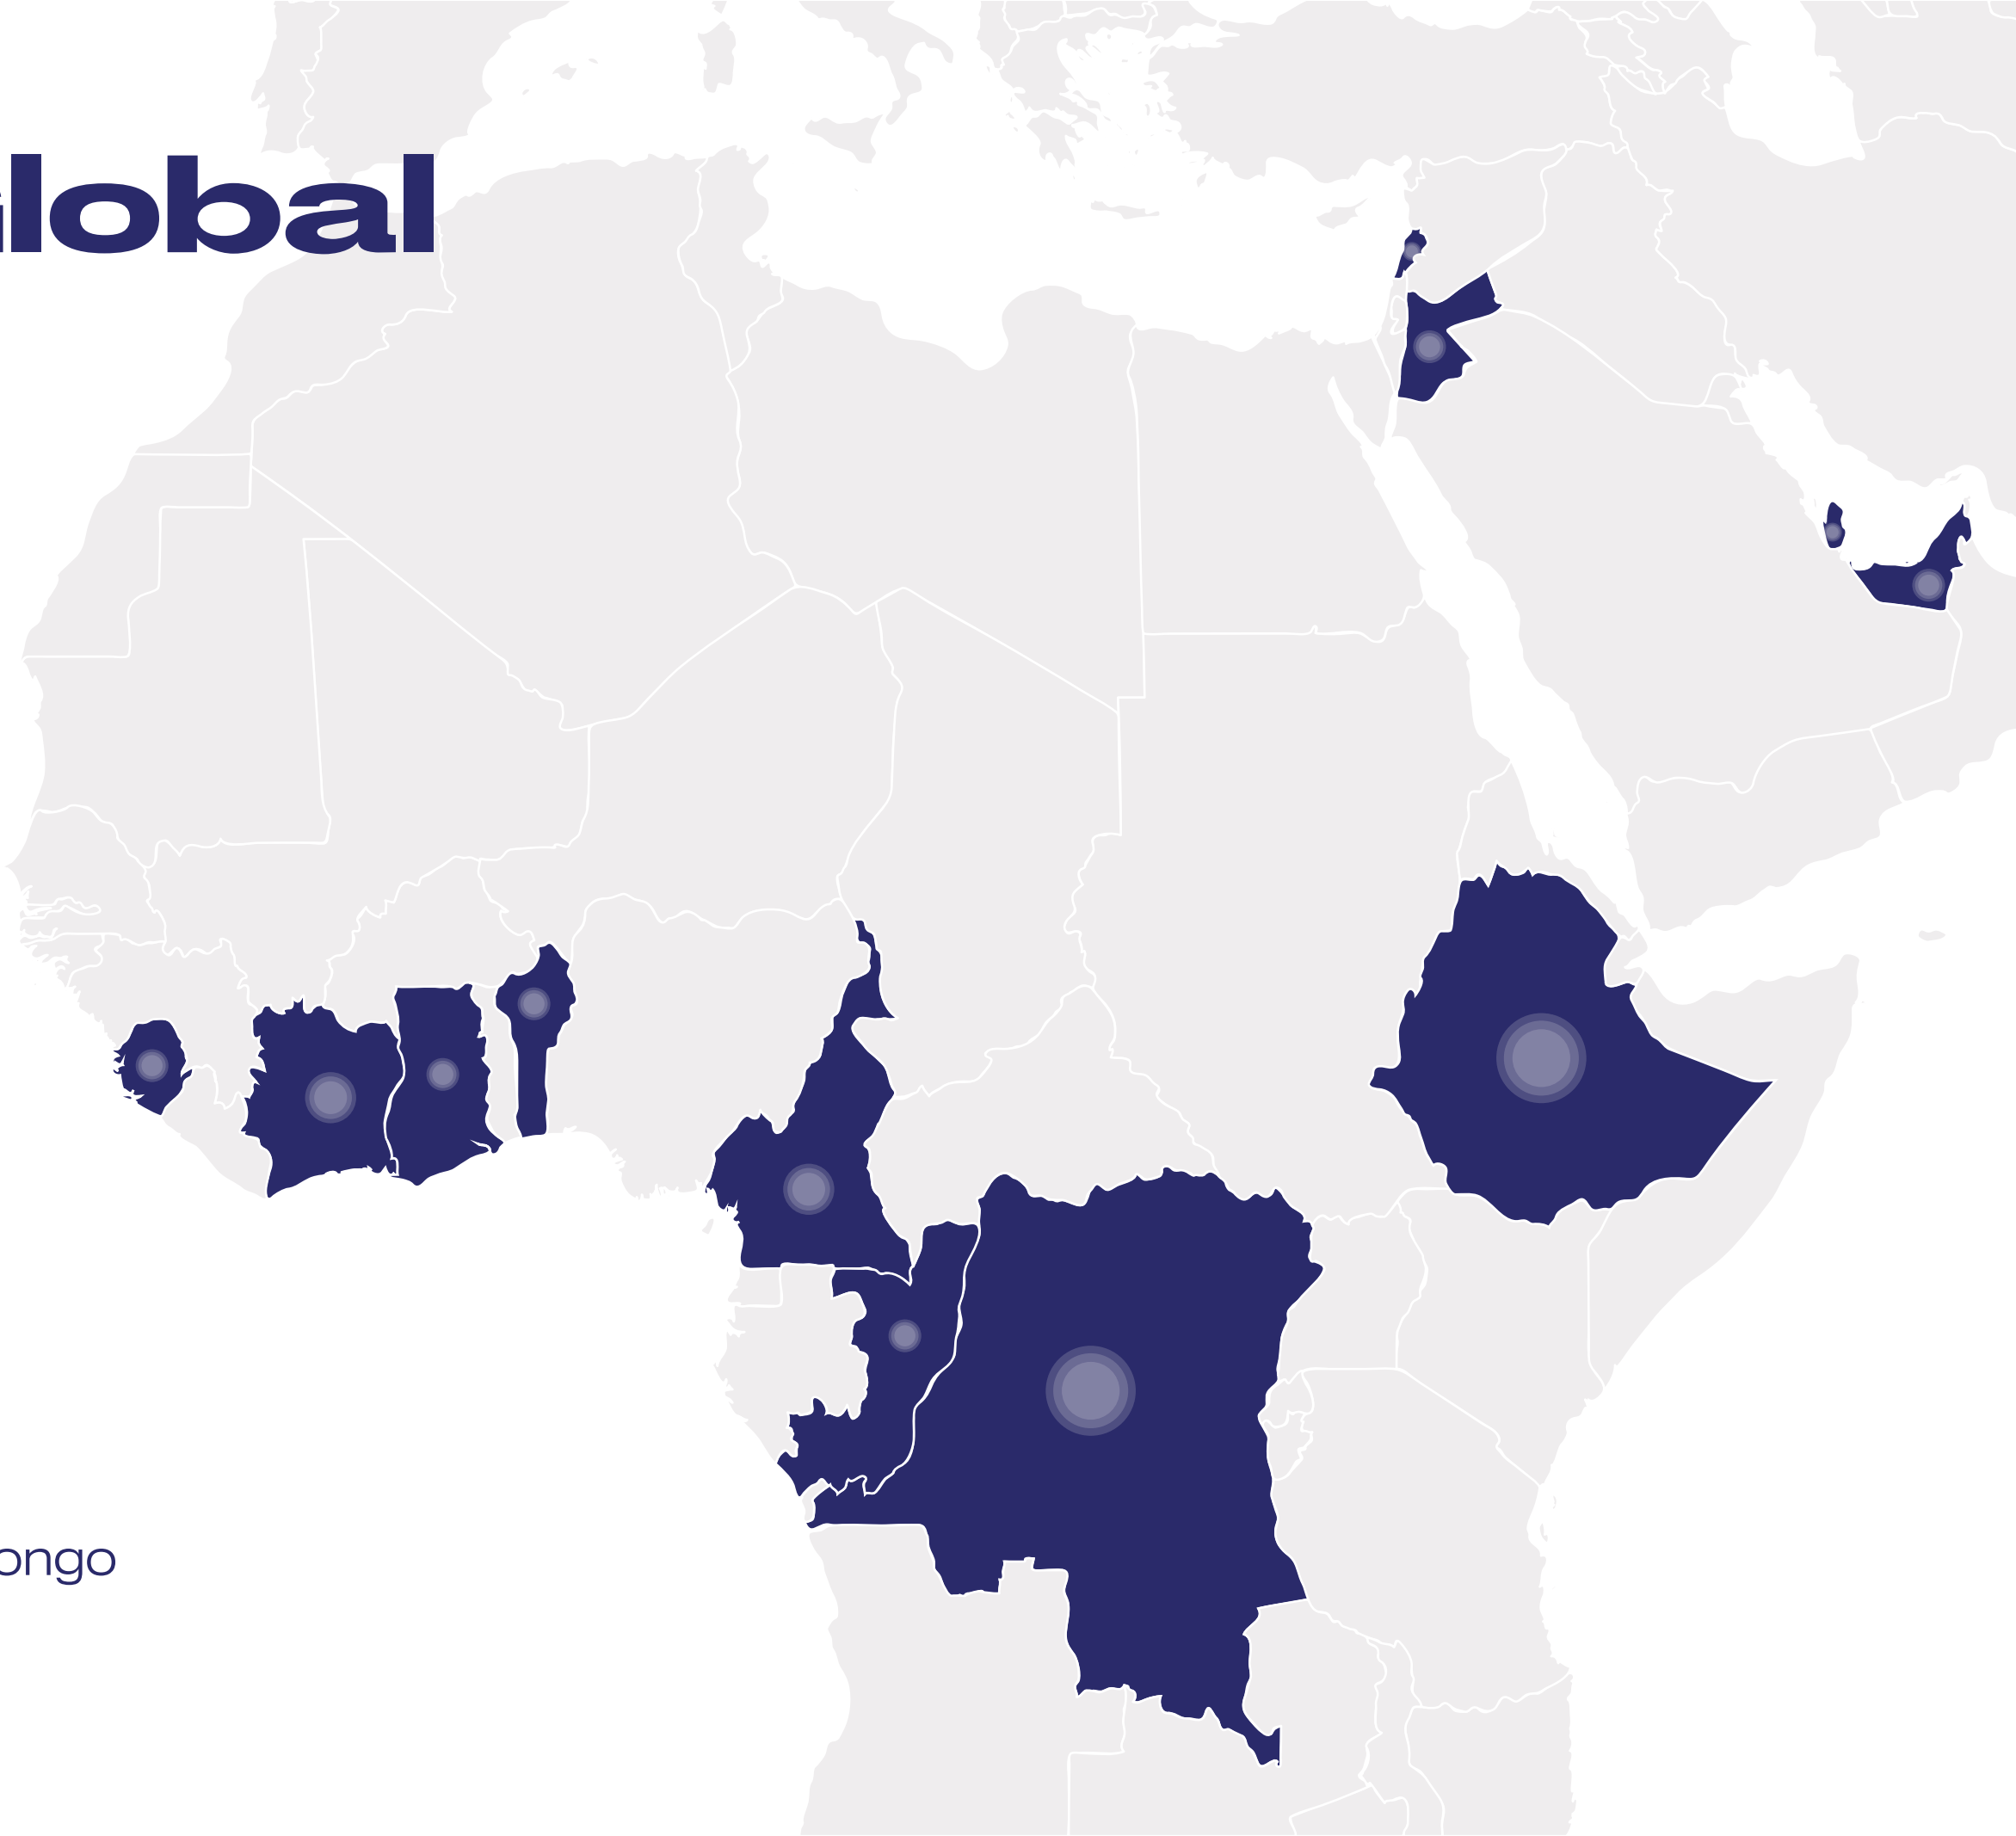

Efficient irrigation systems engineered to optimize water use and nurture healthy landscapes in residential, agricultural, and commercial settings.

IRRIGATION Systems

Group Global Presence

- Lebanon
- Jordan
- Qatar
- Ethiopia
- Cameroon
- Ghana
- Benin
- Côte d'Ivoire
- Sierra Leone
- Republic of Congo
- Democratic Republic of Congo
- United Arab Emirates
